From S F. Carey, Counsellor at Low to the Agents in Cincinnati. CINCINNATI, October 11, 1846. Messrs, Sauford & Park : In June last I was attacked with that most afflicting and unpleasant disease, the Chill and Fever. The paroxysms returned daily, and were very severe. My physical energies had been much impaired, by a previous attack of billions fever. Having tried several favorite remedies without relief, a friend in whom I had confidence, recommended Dr. Osgood's In dia Chalagogue. I procured a tottle, and followed the accompanying directions. The consequence was, that I had but one paroxyism after taking the first dose, and my general tealth was rapidly restored without using any other medicine. I disposed with the remainder of the bottle to two other persons similarly afflicted, and with the same results. One of them had been shaking for eight montis, and was relieved in two days by the use of the Cholagogue. I consider it my duty, as it is my pleasure to recommend it, having the most entire confidence in its sanative powers.

In the year 1840, I was taken with an inflammation of the bowels, which I labored under for 6 weeks, when I gradually recovered. In the fall of 1841, I was attacked with a severe cold, which seated itself upon my lungs, and for the space of three years I was confined to my bed. I tried all kinds of medicines and every variety of medical ald, without benefit; and thus I wenne along until the winter of 1544, when I heard of Wistar's Baissin of Wild Cherry. My friends persunded me to give it a trial, though had given up all hopes of recovery, and had prepared myself for the change of another world. Through their solicit tron, I was induced to make use of the Genuine Wistnr's Balsam of Wild Cherry page 235, the author, speaking of the Fever and Ague, remarks: The effect was truly assonishing.
